

## Bespoke Shelter Design

In addition to a wide range of off the shelf, high profile bus shelter designs, Trueform are able to provide a fully bespoke bus shelter design service.

Trueform's shelters can be supplied in a wide range of configurations, materials, finishes and colours to suit individual design, branding and corporate identity requirements.

Our experienced engineers and designers also work in collaboration with transport consultants and transit agencies to produce bespoke designs that suit individual city and project requirements.

With proven credentials and unsurpassed knowledge of the industry on global scale, Trueform has ensured that its products are fully future proofed and have been designed to incorporate the very latest in passenger information and intelligent transport systems.
