

BESPOKE STRUCTURES

**Shelters • Canopies • Covered Walkways
Screens • Waiting Rooms**

THE UK'S LEADING SUPPLIER

Trueform are the leading manufacturer of custom fabricated structures, including shelters, canopies, covered walkways, glazed screens and platform waiting rooms.

Working in collaboration with architects, scheme designers, main contractors and transport authorities, Trueform has over 40 years of experience, with over 50,000 structures installed Worldwide.

Bespoke Fabrication Services

Trueform's comprehensive in-house design, engineering and manufacturing facilities enables the timely, cost effective supply and installation of fabricated architectural structures to suit any client requirements. Over the years Trueform have provided award winning structures for a wide range of applications.

All of Trueform's structures are fully engineered to the highest standards and can be supplied in a range of elegant, robust materials and finishes to suit individual architectural requirements and to exacting customer requirements.

Our many years of experience enables us to provide high quality bespoke products that are easy and cost effective to install, erect and maintain.

Standard 'Off the Shelf' Products also Available

In addition to our bespoke design and manufacturing services, we also have a comprehensive range of standard 'off the shelf' shelters, canopies, covered walkways and glazed screens.

SPECIALIST AREAS OF OPERATION

- Construction Related Fabrication Services
- Airport & Transport Infrastructure Fabrication
- Stainless Steel & Aluminium Fabrication
- Laser Cutting and Forming
- CAD Design & Specialist Engineering
- Specialist Finishing Services
- Signage Graphics Production
- Project Management
- Nationwide Installation & Site Fitting
- Modular Construction & Site Erection

SECTORS & INDUSTRIES SERVED

- Bus Stations & Interchanges
- Bus Rapid Transit
- Train Stations
- Tram & Light Rail Networks
- Airports
- Cycle Storage
- Schools
- Colleges & Universities
- Shopping Centres & Retail

Materials & Finishes Available

Our structures can be supplied in a range of combined materials & finishes, including:-

MATERIALS

- Stainless steels
- Steels / Galvanised
- Aluminium
- Glass
- Composite Fiber
- GRP - Glass Reinforced Plastic Composites
- GRC - Glass Reinforced Concrete
- Stones and granites
- Composite stone materials
- Timber

FINISHES

- Brushed, satin and linen finish stainless
- Shot peened stainless
- Polyester powder coated - all colours
- Galvanising
- Anodising
- Anti-graffiti coatings

Additional Features & Accessories

Our structures can be supplied with a range of accessories, including: -

- Seating
- Range of glazing options (glass, laminated glass, polycarbonates, composites)
- Automatic sliding doors
- Heating & air conditioning
- Advertising displays
- Rainwater management
- Signage and custom printed graphics
- Digital RTI Displays
- CCTV Cameras
- Anti-Graffiti Protective Coatings
- Bomb Blast Protection
- Solar Power Lighting

Bespoke Features & Services

Working in collaboration with architects, scheme designers, main contractors and transport authorities, Trueform has over 40 years of experience, with over 50,000 structures installed Worldwide.

Design & Engineering Services

- Concept designs
- 3D visualizations & renderings
- Animations and walk throughs
- CAD manufacturing drawings
- Structural engineering
- Foundation designs
- Prototyping & product testing

Manufacturing Services

- Full in-house manufacture
- Construction related fabrication
- Architectural metalwork
- Structural Steelwork
- Laser cutting and forming
- Specialist Finishing Services

Deansgate

Project Management

Trueform's experienced, well-trained and disciplined project managers follow proven project management procedures.

Utilisation of leading planning and management tools gives Trueform full control of quality, cost and programme and ensures successful project management.

Strict adherence to all company quality and health and safety processes ensures a high quality product and a safe working site. Trueform are able to give an individual response to the needs of each project and respond quickly and accurately to changes wherever they occur.

Collaboration with clients, architects & designers From concept to manufacture - a seamless process

Dundee Bus Enclosure

Modular Construction Techniques

Trueform employs modular construction methods which allows the construction of technically complex fabricated metalwork structures to be undertaken quickly and safely by minimising on-site construction times.

Factory fabricated and pre-assembled, the sub-assembled parts are packaged and shipped to site. After delivery, the components can be readily assembled, allowing reduced site occupancy times, reduced costs and shorter programme times.

Installation, Site Fitting & Erection Services

Trueform provide a comprehensive nationwide assembly, erection, site fitting and construction service.

Fully experienced and qualified to undertake construction work on the UK's road, rail, tram and airport networks, Trueform are approved and certified by the following bodies:- RISQS, LINK UP, CHAS, CONSTRUCTION LINE, CSCS, LUL Sentinel and many others.

Services Include:-

- Civils & Excavation
- Foundation Construction
- Installation & Erection
- Project Management
- Electrical Connection & Commissioning
- Cable Jointing
- RTI Support Services
- RTI/ITS System Commissioning
- Testing & Certification
- Maintenance
- Emergency Call Out Services

London Heathrow Bomb Enclosure

Certifications & Accreditations

With a network of installation depots strategically located around the UK, Trueform's nationwide teams of site civils and installation engineers are fully certified and trained to required standards, including:- CSCS, NRSWA, Railway – PTS, London Underground Sentinel, Airside.

trueform

Why choose Trueform?

Mobility is the central basis for economic growth and prosperity in our globalised world, both in urban centres of population and in less densely populated areas.

Trueform provide intelligent public transport solutions to meet this basic requirement.

Trueform blend specialist public transport design engineering and manufacturing skills with accessibility design, graphic design, signing, intelligent electronic transit systems, safety and statutory standards, system planning, technical specification, user analysis, installation and maintenance expertise, based on an in-depth knowledge of public transport operations.

Trueform believes transport environments should be welcoming, safe and easy to navigate. Transport systems should be highly visible, distinctive and easy to use, by everyone. Graphic, service and operational information should be unambiguous and clearly presented. To achieve all of these things our design approach has to be collaborative and rigorous, intelligent as well as inventive.

Trueform have a proven track record in the provision of integrated and coordinated public transport solutions that attract travellers by successfully transforming public transport. This is based on a sound understanding of the travellers requirements - both now and projected into the future.

This is achieved by an assembled team of expertise with professional experience extending over 35 years.

Trueform focus their attention on the points on the transport network where passengers "join", "transfer" and "leave". These are key components to improve, if area wide public transport solutions are to be effective.

Trueform offer the full 'end-to-end' service including all the key stages: Audit - Analysis - Specification - Design - Manufacture - Installation - Lifetime Maintenance.

Trueform provide a 'one-stop-shop' to passenger transport executives, councils and bus operators, that ensures good delivery with less dependence on the clients management resources.

Trueform are involved in an on-going process of identifying the best products and services associated with their business sector and ensuring these become part of their consolidated solution.

We keep pace with local and national agencies affecting public transport policies. We keep informed about relevant legislation, investment programmes/priorities, environmental issues and other key factors such as concerns about 'reduction in carbon emissions.

Transport users appreciate and respect the quality infrastructure that Trueform provides. It improves the appearance of their streets and stations. It ensures places are valued and looked after,

Keeping the infrastructure up-to-date makes it more relevant for lifestyles today and demonstrates that public transport is very much part of the 21st century.

Trueform want to work in partnership to provide public transport solutions which deliver a promising future.
